

Solutions for Optimal Job Site Efficiency

Security and video surveillance solutions that increase security, reduce risk, minimize liability and maximize the efficiency of your construction sites, assets and workers.

Security, surveillance and access control solutions from Twenty20 give you superior vision and control of your remote operations. Leveraging proprietary wireless and software technologies, we give you the benefit of faster insights, higher performance, and more accurate data no matter where your sites are located.

ONE PLATFORM. TOTAL CONTROL.

The Twenty20 cloud-based platform gives you a single, integrated view into all your security, access control and automation operations at your remote sites and gives you real-time visibility and control over every aspect of your on-site operations.

- See all your sites in a single platform accessible on any computer, tablet or phone
- Automated reports deliver data-driven insights to make your operations more productive and efficient
- View real-time video footage live
- Customized Time-Lapse video and alerts
- License Plate Recognition and Vehicle Classification let you know who is on your sites and when

SOLUTIONS FOR ANY ENVIRONMENT
